

TEHREEM RANA

MERN Stack Developer | Software Engineer

tehreemr88@gmail.com | Karachi, Pakistan | [tehreem-rana.vercel.app](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Stack Developer and Software Engineering student at UBIT, University of Karachi, with 1 year of professional experience building production-ready web applications for international clients. Specialized in React, Next.js, Tailwind CSS, Node.js, Express, and MongoDB. Strong foundations in DSA (C++) with 647+ coding submissions across LeetCode, Codeforces, and CodeChef. Delivered client projects including RinseUp UK and ImpexSafe Logistics, earning 5-star reviews for code quality and UX.

WORK EXPERIENCE

MERN Stack Developer (Freelance)

Self-Employed / Client Projects | 2025 - Present | Karachi, Pakistan

- Built **RinseUp UK**, a professional booking platform for a UK-based laundry client with premium UX and full responsiveness.
- Developed **ImpexSafe Logistics**, a cross-border shipping platform handling complex tracking data with a clean, responsive interface.
- Designed and deployed multiple client-facing web apps from concept to production, managing full-stack development with REST APIs and modern frontend architectures.
- Earned consistent 5-star client reviews for code quality, attention to detail, and professional communication.

SELECTED PROJECTS

Challenge Grid Core

Interactive task and goal tracking management app with dynamic UI components for managing daily challenges.

[Demo](#) | [GitHub](#)

Pak Traveler

Smart navigation platform calculating shortest, safest, and low-cost travel routes across Pakistan.

[Demo](#) | [GitHub](#)

Pro Goal Counter

Minimalist counter application for tracking long-term goals and target metrics effectively.

[Demo](#) | [GitHub](#)

Code Typing Challenge

Interactive web app to test, track, and improve code typing speed and precision with real-time WPM calculation.

[Demo](#) | [GitHub](#)

Tangent Tools

Mathematical utility tool for calculating tangent operations with precision for students and engineers.

[Demo](#) | [GitHub](#)

Netflix Clone & Fashion Store Landing

High-fidelity OTT streaming frontend replica (React/CSS) and a modern ecommerce landing page prototype.
